

# Design Concept

## Oneway system & Zone distribution

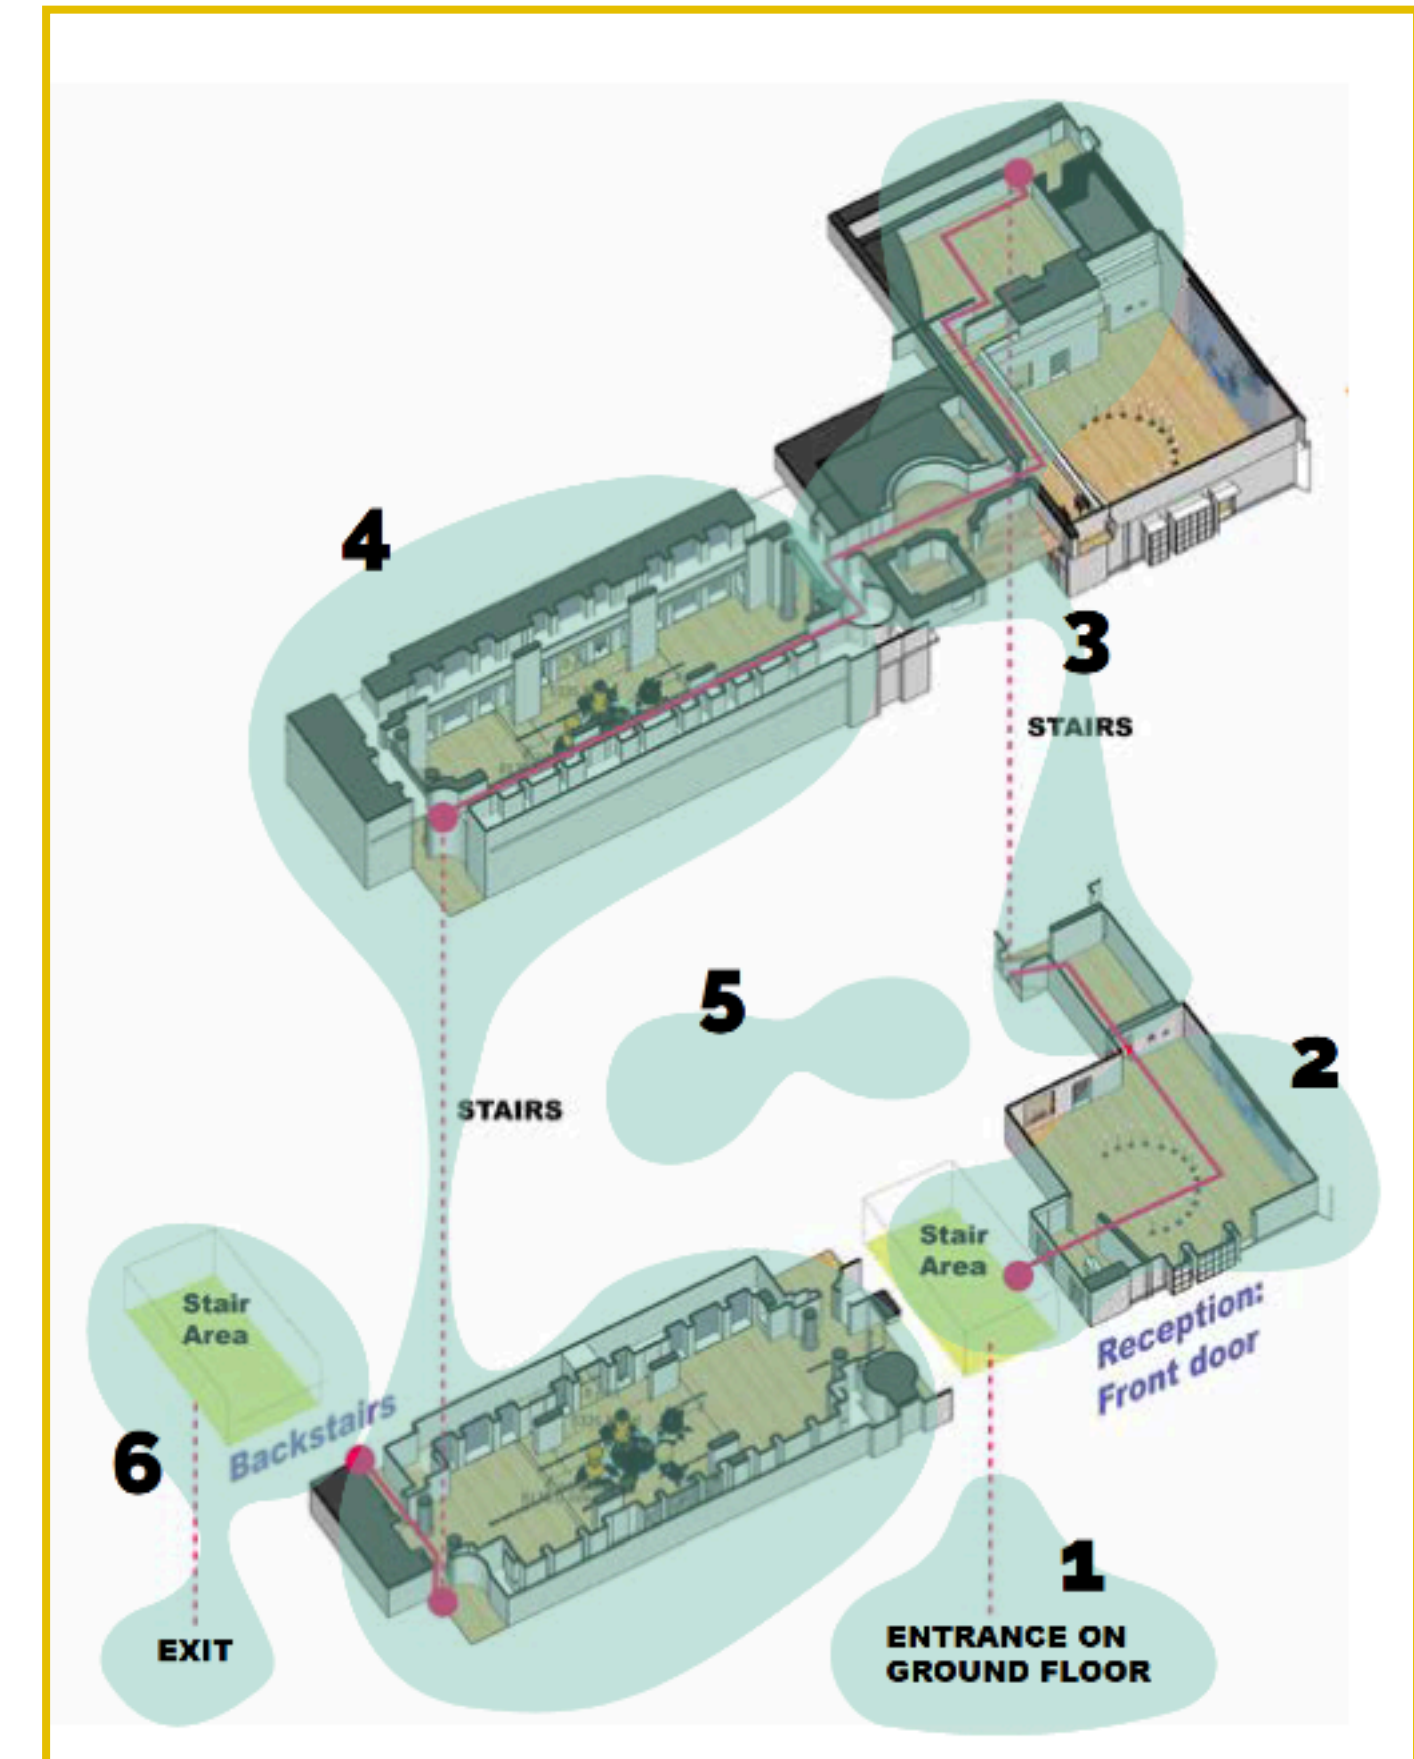

A one-way system will operate from the entrance accessible from both sides (West College Street and South Bridge) and use the glass doors to welcome people in 'bubbles'. Exit will be through the Open Monument stairs into Old College quad.

Graphics & vinyls will indicate the direction of flow around the spaces.

The traffic lights will control the flow of visitors between zones.

Within zones visitors are free to move around at will while maintaining 2m social distancing.

Remain in gallery or space until the light turns green. Then it is safe to proceed.

# Visitor Journey
