Iteration

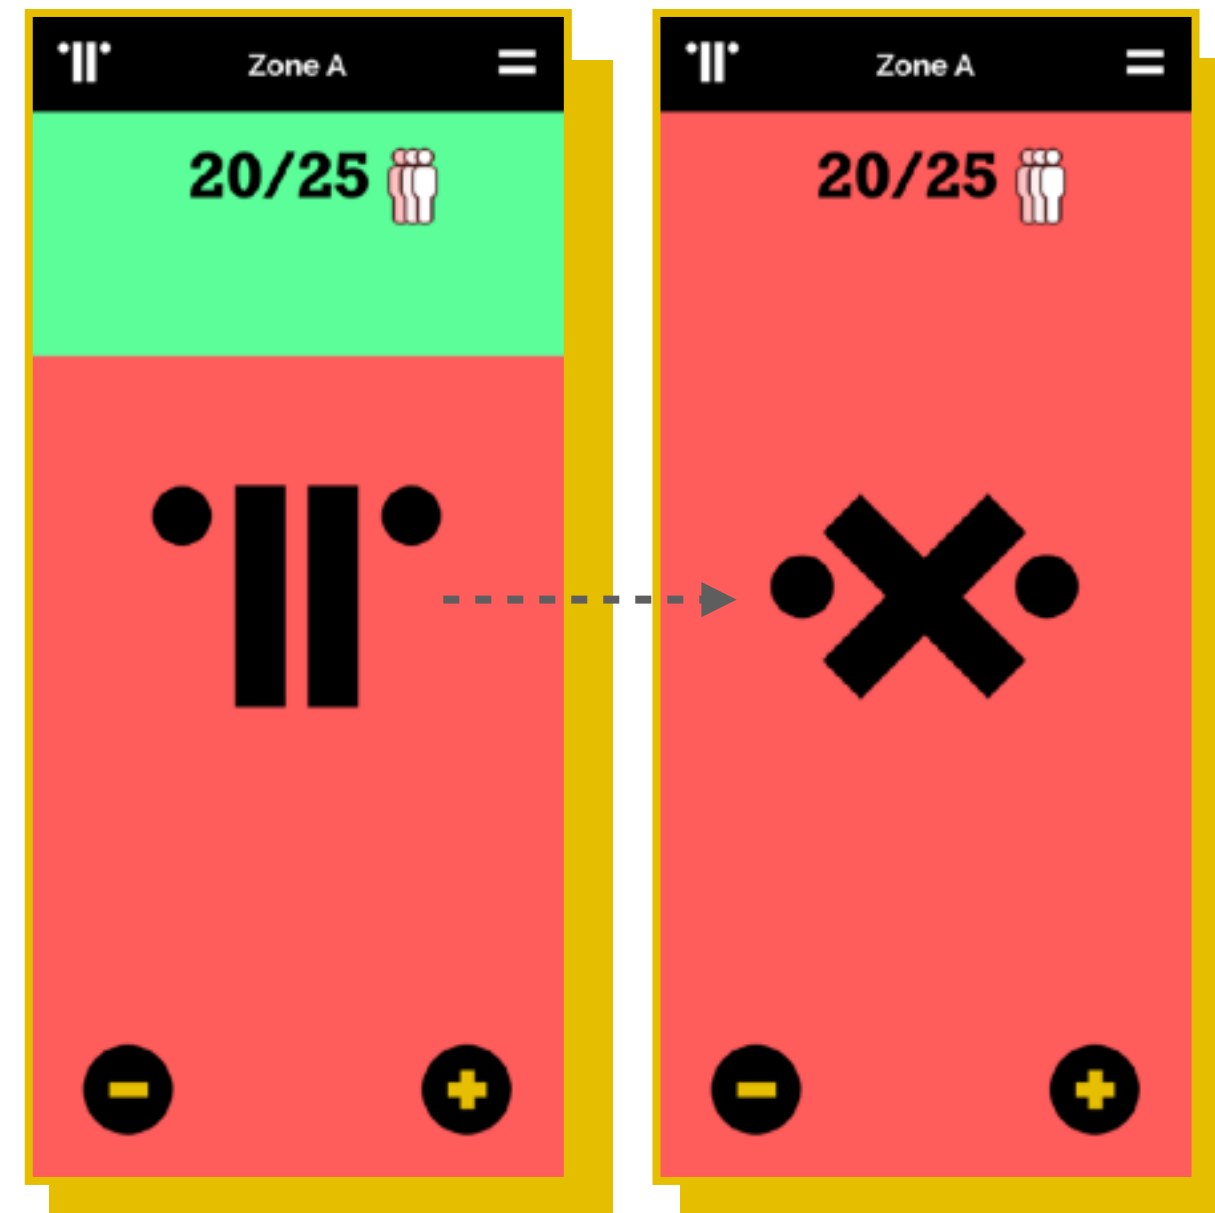

User feedback

We had a workshop and got some feedback..
Based on these user experience, we made design solution and iteration.

Previous App Version

Iterative App version

- The toggle in the bottom make people can't help to press, so we move the function to logo and remove the toggle in case false pressing.
- Change the number colour to make clearer.
- Change the "add" and "minus" button design.
- Add zone and numbers to the traffic lights screen

Traffic lights Iteration
